Multi Touch Screen with Built-in PC

Mobile Solution Quick User Guide

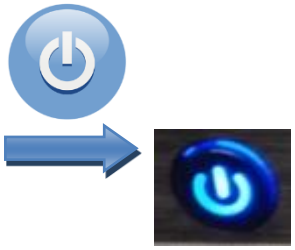
Power On / Off

Press POWER BUTTON AT THE FRONT OF THE UNIT to power on, as indicated.

LED power light will change from RED TO BLUE.

(may take several minutes for Windows OS to boot up.)

Press and hold POWER BUTTON to power off.



Operation

Use WIRELESS KEYBOARD/MOUSE PAD to operate PC.

Alternately tap screen with provided stylus or your finger to navigate in Windows.

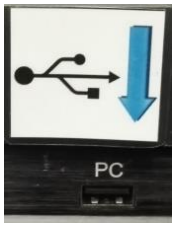
TAP SCREEN for left click, TAP AND HOLD SCREEN for right click.

Graphic Annotation

Run 'EASYMEETING' software on desktop to use graphic annotation function.

This software provides graphic annotation function with EXPORT (SAVE) TO GRAPHIC FILES such as JPEG, GIF etc.

Power Point Presentation



Plug your USB thumb drive into USB SLOT AT THE FRONT, LABELLED AS PC.

Open your power point file.

'EASYMEETING' software is also available to open power point files.

'EasyMeeting' provides more convenient graphic annotation on power point presentations.

Intranet and Internet Access

To access the INTRANET, connect to UoA wireless network using your UPI and password.

YOU MAY HAVE TO LOGIN SEVERAL TIMES to connect to the network.
